

LEAN SIX SIGMA AWARENESS

COURSE OVERVIEW

This is a 1-day course providing an introduction and overview of Lean Six Sigma concepts and principles. Demonstrations will be held to show how Lean Six Sigma will be beneficial to your business's top-line and bottom-line. Participants will also be exposed to live simulation and game enabling them to grasp LSS concepts better and assist them in their future application of LSS.

The course will enable participants to identify potential operational wastages and to develop strategic opportunities that would be translated into competitive cost, faster turn-around time, better productivity, lesser inventories and superior quality with greater flexibility to meet fluctuating market demands.

COURSE GOALS

The Lean Six Sigma Awareness Programme delivers knowledge on:

Lean and Six Sigma Methodologies

- ▶ Implementing Six Sigma with MAIC project
- ▶ The 10 Ways of Guiding Six Sigma to Organizations
- ▶ DMAIC phases: Design, Measure, Analyze, Improve, Control
- ▶ Key Players & Steps Involved

Lean Six Sigma as Measurable tool

- ▶ A mathematical measurement
- ▶ Decision on Making via data
- ▶ Rolled Throughput Yield vs. Traditional Yield
- ▶ The Six Sigma alignment to the Business Operation
